HOW IT WORKS

A fine 31G needle on a standard screw-on hub. Each needle is sealed under a peel-off tab, so it stays sterile until it is fitted.

RESEARCH CONTEXT

Fits standard pen-needle hubs, including both pens in this range. For drawing from a vial, use insulin syringes instead.

WHAT'S IN THE BOX

- 10 × pen needles
- 31G × 8mm
- Standard screw-on hub
- Individually sealed · sterile

Storage & handling: Supplied sterile — do not use if the seal is broken. Single use only: fit a new needle every time, never reuse, and discard into a sharps container. Store dry at room temperature.
